

18" Built-in Wine Cellar Column Stainless Steel Master Series

REF18WCPIXR

These premium built-in column wine cellars are masterpieces of Bertazzoni design and technology. Their stylish stainless-steel and glass front doors reflect close attention to detail and high-quality materials.

Designed to keep your wine at its best, it offers a high level of control with 2 temperature zones for red and white wine that cool between 40° F and 65° F. The unique side-to-side airflow circulation maintains the correct temperature in each zone when opening the door for reloading. The intuitive digital touch-control interface lets you select the perfect temperature range and control the humidity. Red wine ageing function lets you lay down the bottles that will be kept in the best condition possible.

A tinted triple glass UV protected door protects your valuable wine collection from light damage. A vibration damping system on the compressor lets wine rest undisturbed. Custom lighting keeps the lights on for 12 hours for maximum visual impact.

Designed to allow for elegant configurations of wine cellar, refrigerator and freezer in any desired width, they work in harmony with handles and finishes available for every Series.

Bertazzoni built-in column wine cellars are designed with pride in Italy and covered by an industry-leading 2-year parts and labor warranty.
