

24" Built-in Wine Cellar Column Panel Ready Master Series

REF24WCPRR

These premium built-in column wine cellars are masterpieces of Bertazzoni design and technology. Their stylish panel ready and glass doors reflect close attention to detail and high-quality materials.

Designed to keep your wine at its best, it offers a high level of control with 2 temperature zones for red and white wine that cool between 40° F and 65° F. The unique side-to-side airflow circulation maintains the correct temperature in each zone when opening the door for reloading. The intuitive digital touch-control interface let you select the perfect temperature range and control the humidity. Red wine ageing function lets you lay down the bottles that will be kept in the best condition possible.

A tinted triple glass UV protected door protects your valuable wine collection from light damage. A vibration damping system on the compressor lets wine rest undisturbed. Custom lighting keeps the lights on for 12 hours for maximum visual impact.

Designed to allow for elegant configurations of wine cellar, refrigerator and freezer in any desired width, they work in harmony with handles and finishes available for every Series.

Bertazzoni built-in column wine cellars are designed with pride in Italy and covered by an industry-leading 2-year parts and labor warranty.

Specifications

Features

General features

Size	24 in
Cooling system	two temperature zones
User interface	digital touch control interface inside
Modes	Humidity control, Sabbath mode
Lighting	LED lights interior illumination
Open door alarm	yes
Door finishing	panel ready
Interior finish	white aluminium
Finishing	panel ready with glass
Shelves	12 wooden wine racks
Bottle capacity	80 bottles
Certification	CETLUS

Technical specifications

Electrical supply	115 V - 60 Hz - 152 W - 1.4 Amp
Power connection	NEMA 5-15P with 79" power cord
Energy consumption	475.0 kWh/yr
